

Milton Abbot, Chillaton and Kelly Neighbourhood Plan

Bradstone: Chillaton: Dunterton: Kelly: Meadwell: Milton Abbot: Quither

09/03/17

Dear all

Attached are the latest versions of the questionnaire and cover sheet.

At our meeting yesterday, we agreed that we had finalised the questionnaire, with the exception of an expanded section to include all three village halls, not just Chillaton's [lack of].

In finalising it, we agree that:

- We would refer to an *appropriately* completed form as a prerequisite for inclusion of the relevant slip in the prize draw.
- There would be a reference to a helpline for people with queries or concerns.
- MACKPlan would try to *influence*, not control, the appearance of new dwellings in the area.
- There would be a reference to the JLP envisaging that wind turbines would only be built on sites identified in MACKPlan.
- There would be a helpline number for people to use, if they had any queries or concerns about the form or needed further information.

Those amendments are in red on V.18.

We also agreed that we should acknowledge the size of the questionnaire and the likely time it would take to complete it. I have completely revised the cover sheet, editing the text so that I can use 12 point for most of it, while still retaining the photos and include a message about the size of the form. I haven't referred to the likely time it will take to complete it, because that will vary so much and the main thing is to state that although it's a large form, you only have to fill in some of it.

We agreed that we would ask Chris to consider producing the business questionnaire online and that Peter would provide information on alternatives to Survey Monkey that he was aware of.

We agreed that Peter and Gary would provide information on their respective village halls, to Howard by the end of the month.

We agreed that Howard would prepare an application for grant aid, but this would be considered by the team before submission.

Best regards

Howard
